

By far, my favorite holiday of the year is Thanksgiving. I love to eat. I love to drink good wine. I love to watch my sometimes woeful Cowboys play football. But most importantly, I love to spend time with my whole family. And over the years, that family has really grown!

For one day of the year, I try to forget about all the nonsense going on in the world. For one day, it's nice to ignore Europe's problems, the Super Committee's failure, global warming, the economy, the markets, etc. and just be thankful for what we have. Those problems will still be there on Friday to deal with.

Thanksgiving is a time to be grateful for what we have, not what we don't have. I often remind myself that there is always someone else worse off and I should never forget to stop and appreciate all the good while trying to help others. Plenty of folks in this great country and around the world are struggling. Some have financial issues, health concerns or family problems.

While I am thankful every day, even more so on Thanksgiving that I have such a loving family. A wonderful wife, three beautiful and thriving kids, great parents, an awesome brother and a fantastic in-law family. I am pretty healthy. Does it take much else to be happy?

I consider myself to be very lucky and I certainly do not take that for granted. On Thanksgiving, I hope we all can be thankful and grateful for the good things in our lives.

On behalf of my family and the Heritage Capital family, Laura, I wish you the best Thanksgiving yet!

To Your Financial Success,

Paul Schatz

Important Disclosure Information

Heritage Capital LLC ("Heritage") composite performance results represent time-weighted actual performance results for continuously managed Heritage accounts, which individual accounts Heritage believes to be representative of its investment management process (i.e. mutual funds and exchange traded funds) for each specific strategy during the corresponding time period. The composite performance results reflect the reinvestment of dividends and other account earnings, and are net of applicable account transaction and custodial charges, and the separate fees assessed directly by each unaffiliated mutual fund and exchange traded fund holding that comprised each account, and the maximum investment advisory fee that the accounts would have incurred (by applying the Heritage's current investment advisory fee of 2.00% as set forth in its current written disclosure statement) during the corresponding time periods.

Please Note: Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance will be profitable, equal the performance results reflected, or equal any corresponding historical benchmark index. The historical index performance results for all historical benchmark indices do not reflect the deduction of transaction and custodial charges, or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing indicated historical performance results. The historical performance results for all indices are provided exclusively for comparison purposes only, so as to provide general comparative information to assist an individual client or prospective client in determining whether the performance of a Heritage program meets, or continues to meet, his/her investment objective(s). A corresponding description of each index is available from Heritage upon request. It should not be assumed that Heritage account holdings will correspond directly to any such comparative benchmark index. The Heritage performance results do not reflect the impact of taxes.

For reasons including variances in the investment management fee incurred, market fluctuation, the date on which a client engaged Heritage's investment management services, and any account contributions or withdrawals, the performance of a specific Heritage client's account may have varied substantially from the indicated portfolio performance results.

In the event that there has been a change in a client's investment objectives or financial situation, he/she/it is encouraged to advise Heritage immediately. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments purchased and/or investment strategies devised or undertaken by Heritage) will be profitable.

Information pertaining to Heritage's advisory operations, services, and fees is set forth in Heritage's current disclosure statement, a copy of which is available from Heritage upon request. Performance results have been compiled solely by Heritage, are unaudited, and have not been independently verified. Heritage maintains all information supporting the performance results in accordance with regulatory requirements.
