

## HERITAGE CAPITAL LLC

Invest for Tomorrow. Live for Today.™

I am going to be on Fox Business' Making Money with Charles Payne TODAY, Thursday, July 30, from 6:00 pm - 7 pm.

This is always one of my favorite shows and the hour flies by with a constant barrage of new topics. If you have a Twitter handle, make sure and comment during the show as we will comment back.

While I am overdue for a full Street\$mart, there have lots of posts on [www.investfortomorrowblog.com](http://www.investfortomorrowblog.com). Several deal with China and my ongoing thesis of lower prices. There was a very timely post about stocks pulling back even more as well my continued positive outlook on the homebuilding sector.

Finally, I do not believe the pullback in stocks has run its course just yet. Once this bounce runs its course, we should see lower lows in the major indices where the real buying opportunity could be.

## To Your Financial Success,

#### Important Disclosure Information

Heritage Capital LLC ("Heritage") composite performance results represent time-weighted actual performance results for continuously managed Heritage accounts, which individual accounts Heritage believes to be representative of its investment management process (i.e. mutual funds and exchange traded funds) for each specific strategy during the corresponding time period. The composite performance results reflect the reinvestment of dividends and other account earnings, and are net of applicable account transaction and custodial charges, and the separate fees assessed directly by each unaffiliated mutual fund and exchange traded fund holding that comprised each account, and the maximum investment advisory fee that the accounts would have incurred (by applying the Heritage's current investment advisory fee of 2.00% as set forth in its current written disclosure statement) during the corresponding time periods.

Please Note: Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance will be profitable, equal the performance results reflected, or equal any corresponding historical benchmark index. The historical index performance results for all historical benchmark indices do not reflect the deduction of transaction and custodial charges, or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing indicated historical performance results. The historical performance results for all indices are provided exclusively for comparison purposes only, so as to provide general comparative information to assist an individual client or prospective client in determining whether the performance of a Heritage program meets, or continues to meet, his/her investment objective(s). A corresponding description of each index is available from Heritage upon request. It should not be assumed that Heritage account holdings will correspond directly to any such comparative benchmark index. The Heritage performance results do not reflect the impact of taxes.

For reasons including variances in the investment management fee incurred, market fluctuation, the date on which a client engaged Heritage's investment management services, and any account contributions or withdrawals, the performance of a specific Heritage client's account may have varied substantially from the indicated portfolio performance results.

In the event that there has been a change in a client's investment objectives or financial situation, he/she/it is encouraged to advise Heritage immediately. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments purchased and/or investment strategies devised or undertaken by Heritage) will be profitable.

Information pertaining to Heritage's advisory operations, services, and fees is set forth in Heritage's current disclosure statement, a copy of which is available from Heritage upon request. Performance results have been compiled solely by Heritage, are unaudited, and have not been independently verified. Heritage maintains all information supporting the performance results in accordance with regulatory requirements.
